DIRECTOR OF ENGINEERING AND QUALITY

COME AND JOIN OUR GROWING COMPANY!

Integra-Cast, Inc., a manufacturer of precision cast/machined components for the aerospace, medical and commercial industries seeks a Director of Engineering and Quality. Integra-Cast has made significant improvements in the last few years training employees and applying lean principles, and is committed to continue its lean journey. This position reports directly to the President and has the responsibility of Engineering and Quality systems. The successful candidate will possess a minimum of 10 years experience in management, machining, contract review, ISO/AS9100 and NADCAP requirements, and a minimum of 5 years experience using and implementing lean and six sigma best practices.

This position manages the engineering and quality functions and is responsible for the overall direction, coordination and evaluation of staff. Integra-Cast offers excellent benefits. To apply for this exciting position, please send resume to:
